

DIY ROOFING DONE RIGHT!

WHAT IS CRAZY SEAL?

CRAZY SEAL (Patent Pending) is a revolutionary, DIY, fluid-applied roofing system that is seamless, permanent, and backed by a fifty year product warranty.

The secret is its simple 3 step system composed of high grade silicone that is infused with fibers. This combination creates incredible strength and versatility without sacrificing flexibility and elongation.

Because of its versatility, the Crazy Seal Roofing System can be applied to thousands of different applications:

RV'S

TRAVEL TRAILERS

FIFTH WHEELS

HORSE TRAILERS

TRUCK CAMPERS

POPUP CAMPERS

PORCH ROOFS

SUNROOMS

MOBILE HOMES

USE THE CRAZY SEAL SYSTEM TO DO YOUR ROOF YOURSELF. DO IT RIGHT, DO IT ONCE, AND SAVE!

OUR 3 PART SEALING SYSTEM

CRAZY CAULK is a fiber infused, silicone, moisture-curing sealant with excellent adhesion to most surfaces. Crazy Caulk is generally used to seal seams.

CRAZY PATCH is a fiber-infused, silicone, self-leveling mastic. It is generally used to seal all existing penetrations, but can also be used as a single component repair product to patch leaks.

CRAZY SEAL is a weather-proof, fiber-infused silicone roof coating. The unique fiber-infused silicone makeup of Crazy Seal remains permanently flexible yet strong.

Our products form a perfect bond when applied together. This creates a seamless, permanent membrane that bonds directly to every square inch of the roof. You now have a custom-fit membrane with no resealing or maintenance required.

SIMPLE DIY APPLICATION

STEP 1: INSPECTION

STEP 2: CLEAN & PREP THE ROOF

APPLY CRAZY CAULK

APPLY CRAZY PATCH

APPLY CRAZY SEAL

STEP 3: INSTALL THE CRAZY SEAL SYSTEM
