

Photo Guidelines for Crazy Seal Warranty

IMPORTANT: Take photos before you begin!

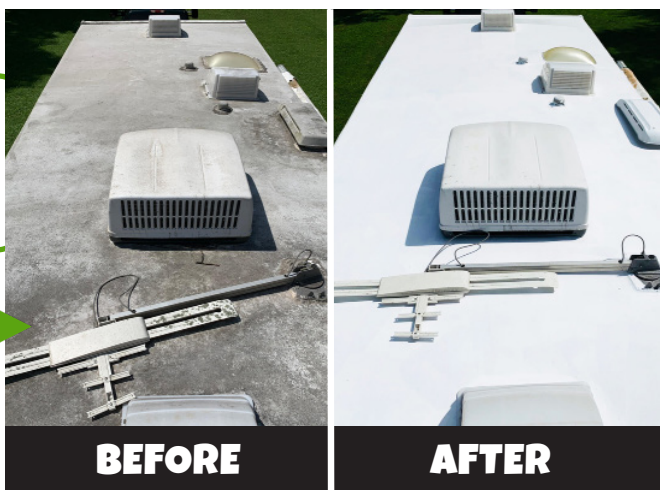

Before you begin your project, remember to take before images of your application! Upon completion, take after images. You will include both the before and after photos on the online warranty form to qualify for our 50 year product warranty. You can find the warranty form here:

<https://crazyseal.com/warranty/>

Please take photos from the front and back of your application and try to get as much in the frame as possible.
