START WITH A REPAIR AND EXPAND FROM THERE!

Join thousands who are using the **CRAZY SEAL ROOFING SYSTEM** to take control of their roof.

WHAT IS CRAZY SEAL?

CRAZY SEAL is a revolutionary, liquid-applied roofing system that is seamless, permanent, and backed by a fifty year product warranty.

The secret to Crazy Seal is its simple 3 step system composed of high grade silicone infused with fibers. This combination creates incredible strength and versatility without sacrificing flexibility and elongation.

Because of its versatility, the Crazy Seal Roofing System can be applied to thousands of different facility types including restaurants, hotels, apartment complexes, commercial offices, convenience stores, retail shopping centers, warehouses, storage facilities, education buildings, recreational vehicles, mobile facilities, travel trailers, workshops, and more!

THE APPLICATIONS ARE ENDLESS!

3 PART SEALING SYSTEM

CRAZY CAULK

is a fiber infused, moisture-curing sealant with excellent adhesion to most surfaces. Crazy Caulk is generally used to seal seams.

CRAZY PATCH

is a fiber-infused, self-leveling mastic. Crazy Patch is generally used to seal all existing penetrations, but can also be used as a single component repair product to patch leaks.

CRAZY SEAL

is a weather-proof, fiber-infused silicone roof coating. The unique fiber-infused silicone makeup of Crazy Seal remains permanently flexible yet strong.

Our products form a perfect bond when applied together. This creates a seamless, permanent membrane that bonds directly to every square inch of the roof.

FACILITIES ROOFING

For centuries the roofing cycle has been the same: repair, repair, replace.

It's time to take back control of your roof! With Crazy Seal, a patch doesn't just have to be a patch.

You can now professionally handle problem areas on your roof, know the system that was used to solve the problem, and expand on it until you have a full seamless roofing system installed that will stand the test of time!
